

02/20/2025

Dear Admissions Committee,

I am honored to write this letter of support for Mr. Thompson as he applies to the Master of Science in Business Analytics program.

I have had the pleasure of knowing Mr. Thompson for two quarters, during which he took my Data Management and Cleaning course at Eastern Washington University. From the beginning, Mr. Thompson demonstrated an exceptional commitment to learning and a passion for data analytics that set him apart from his peers. His performance in my class was nothing short of outstanding—he consistently submitted work of the highest caliber, demonstrating not only technical proficiency but also critical thinking.

What truly distinguishes Mr. Thompson is his ability to go above and beyond expectations. Not only did he excel academically, earning top marks on all his assignments, but he also actively contributed to the learning environment by engaging in insightful discussions and assisting his peers. His enthusiasm for learning is contagious, and his positive attitude has had a meaningful impact on the classroom dynamic. He possesses an innate curiosity and a strong analytical mindset, both of which are essential for success in the field of business analytics.

Beyond his academic achievements, Mr. Thompson is an outstanding individual with a strong work ethic, excellent communication skills, and a genuine passion for problem-solving. His ability to collaborate effectively and his willingness to take initiative make him a natural leader among his peers. I have no doubt that he will bring the same level of dedication, intellect, and enthusiasm to your program.

I strongly recommend Mr. Thompson for admission to the MS in Business Analytics program. He is a talented, driven, and personable individual who will undoubtedly make valuable contributions to your academic community. Please contact me at apaparas@ewu.edu, if you would like any additional information.

Sincerely,
Alexandros Paparas,
Assistant Professor,
Department of Information Systems and Business Analytics,
Eastern Washington University
